Send SMS to contact with students

Website: allow students to interact with institute and keep update all news and advertisements

Backend developer (LARAVEL 8 , MYSQL) with average 71%

- **Billiard game** (2020)

Simulating collisions , applied forces and linear motion

C++ Programmer (C++ open-GL) with average 90%

- **Fighting game** (2020)

develop a game in java implementing oop and multi threading concepts

Java Programmer

- **Video editing and making** (2021)

Extract frames , add text or image watermark to video , delete frames , create video from images and sound clip

Java Programmer

- **Security application** (2022)

Secure chat between client and server applying security concepts (symmetric encryption ,

Asymmetric encryption – digital signature and digital certification)

Java Programmer

- **Java application using remote object and web services (2022)**

Apply RMI and SOAP in java

Java Programmer

Skills

- ▶ Java
- ▶ C++
- ▶ C#
- ▶ PHP
- ▶ JAVASCRIPT
- ▶ HTML5
- ▶ CSS3
- ▶ LARAVEL : WEB + API (blade template , OOP , MVC pattern ,Repository pattern Services container, ORM , migration , seeder , Trait , middleware , validation , Authentication (one guard and multi guards) , file storage ,send mails)
- ▶ MYSQL
- ▶ Microsoft SQL Server
- ▶ ERD design
- ▶ UML Chart design
- ▶ Team work
- ▶ Fast learning
- ▶ Problem solving
